The Conference

- The German Conference on Bioinformatics (GCB) is an annual, international conference devoted to all areas of bioinformatics and meant as a platform for the whole bioinformatics community.
- Recent meetings attracted a multinational audience with 250 – 300 participants each year.
- In 2019, the conference focuses on bringing physicians, bioinformatics & medical informatics together and aims to showcase applications and opportunities beyond.
- Spearheading scientists will be presenting along with young researchers and industry representatives.
- Workshops will provide opportunities for hands-on experience
